CANADIAN-MADE PET FOOD

Cat Stars

*Complete balanced diet
for cats at every stage*

Masterfeeds Cat Stars is a balanced diet which provides essential nutrients for every stage of your cat's life. Cat Stars is fortified with taurine, an essential amino acid for cats, and high quality chicken, which has been added for extra taste appeal.

FEEDING DIRECTIONS:

The average adult cat will usually eat one 8 oz cup of Masterfeeds Cat Stars per day. Start with one cup. If the food is not completely consumed, replace it with a fresh, but slightly smaller amount each day. When kittens are three to six weeks old, they should be fed one to two tablespoons of Cat Stars moistened with warm water, milk or broth. Gradually increase the amount of Cat Stars until kittens are weaned at around eight weeks of age.

Pregnant or lactating cat: Up to one-and-a-half times the normal adult cat food intake is recommended in the last trimester of pregnancy. During lactation, two to three times the normal adult food intake are required for milk production and the maintenance of body weight.

Always provide plenty of fresh, clean water.

For more detailed feeding guidelines, refer to the product package or contact your Masterfeeds Account Manager or nearest Dealer.

Weight of Cat (kilograms)	Weight of Cat (pounds)	Quantity cup(s)/day	Quantity grams/day
2 to 4	4 to 9	¼ to ½	30 to 55
4 to 6	9 to 13	½ to ¾	55 to 80
6 to 8	13 to 17.5	¾ to 1	80 to 90
8 to 10	17.5 to 22	1 to 1 ¼	90 to 110

*Weight of food per cup (8 oz/250 ml): 110 g
Metabolizable Energy: 3,685 kcal/kg (405 kcal/250 ml cup)*

FEATURES & BENEFITS:

Chicken and vegetable proteins. Quality, balanced amino acid levels.

Choice, high quality fat. A concentrated source of energy, and to improve digestibility, palatability, skin and hair coat.

Taurine (an essential amino acid for cats). Aids in the prevention of blindness and heart muscle disease.

Contains Bioplex®. Trace minerals are better able to meet the high nutrient needs of pets for overall health, growth and skin and coat condition.

Contains Sel-Plex®. Alltech's proprietary organic form of selenium yeast, is better absorbed, stored and utilized by animals than inorganic Selenium.

Natural flavor enhancers. Improved palatability.

Specially formulated to help with urinary tract health.

Does not contain ethoxyquin or artificial flavors.

Does not contain any by-products.

Ingredients: chicken meal, pearled barley, corn, poultry fat (preserved with mixed tocopherols and citric acid), natural flavor, dried beet pulp, flaxseed, potassium chloride, yeast autolysate, salt, choline chloride, methionine, lysine, zinc proteinate, taurine, iron proteinate, yeast active dehydrated, copper proteinate, selenium yeast, corn starch, manganese proteinate, yucca schidigera extract, vitamin E supplement, niacinamide, calcium pantothenate, vitamin A supplement, riboflavin, thiamine mononitrate, zeolite, pyridoxine hydrochloride, vitamin D₃ supplement, calcium iodate, folic acid, vitamin B₁₂ supplement, rosemary extract.

Happy Hound

Complete bite-sized food for active dogs

HAPPY HOUND

Masterfeeds Happy Hound is a convenient, complete and balanced, bite-sized food with a superior meat formula for your active, hardworking adult dog. Happy Hound is fortified with high quality fat to help meet the energy requirements of the active dog, and provides essential fatty acids.

FEEDING DIRECTIONS:

Adult dogs should be fed once or twice per day. Find your dog's approximate weight on the chart to determine the amount of food you should feed daily. If your dog is active, use the larger amount. Less active dogs should be fed the smaller amount.

Always provide plenty of fresh, clean water.

For more detailed feeding guidelines, refer to the product package or contact your Masterfeeds Account Manager or nearest Dealer.

Weight of Dog (kilograms)	Weight of Dog (pounds)	Quantity cup(s)/day	Quantity grams/day

Premium Adult

Complete lamb and rice diet for dogs of all breeds and ages

PREMIUM ADULT

Masterfeeds Premium Adult dog food is a nutrient dense, complete lamb and rice diet for adult dogs with allergies, dry skin, sensitive stomach, dull coats and stressed dogs that require a specialized source of nutrition.

FEEDING DIRECTIONS:

Adult dogs should be fed according to their activity level and body condition. Age, stress and environment also affect the nutritional needs of adult dogs. With this in mind, use the chart below to determine the initial amount of food to feed your adult dog each day. Adjust the amounts below for feeding pregnant and lactating dogs since their nutrient needs can require two to four times the amount of food in order to nurse properly and maintain body condition.

Always provide plenty of fresh, clean water.

For more detailed feeding guidelines, refer to the product package or contact your Masterfeeds Account Manager or nearest Dealer.

Weight of Dog (kilograms)	Weight of Dog (pounds)	Quantity cup(s)/day	Quantity grams/day
1 to 5	2 to 11	¼ to 1	25 to 100
5 to 10	11 to 22	1 to 1¼	100 to 175
10 to 20	22 to 44	1¼ to 3	175 to 300
